

This is Ellie. I just wanted to thank you again for the scholarship, I am so grateful. I know you wanted me to check in once I'm settled into Lehigh University but I never figured out what email to send it to, so I will just text:) I am entering week 4 of being here and I must say I am absolutely loving it. Covid-19 has altered a lot of how campus runs especially because most classes are online but I still have managed to meet so many amazing people. I am taking a lot of environmental/ population health courses which I find so interesting so it makes up for the large work load! I ended up using some of the scholarship money to get an ipad for note taking because we are doing so much online learning. It has been so helpful for all of my classes and I genuinely look forward to taking notes, which is crazy! I hope you are well and enjoying the last bit of summer. Thank you again.
